RUSS ARMIES WITHOUT BREAD

NEW GERMAN COUNTER ATTACKS FAIL IN WEST

REBEL GOVERNMENT DECLARES A MORATORIUM FOR TWO MONTHS

New Rule Established in the Caucasus to Put Down Anarchy, Reports American Consul

(By Associated Press.)
The Russian army which is holding the northern front has had no bread for several days, according to reports received at Petrograd and transmitted here. Only two or three days' supply of army biscuit is on hand. Army delegates are reported to have recommended the withdrawal of troops in order to prevent a general flight. Instead of hundreds of cars of food arriving daily on the front only twenty were received.

clared a two months' moratorium, dated from the beginning of the recent revolt, according to a Petrograd dispatch.

(By Associated Press.)
WASHINGTON, Nov. 27.—The American consul at Tiflis has reported the establishment of a new government in the Caucasus to protest against anarchy in Russia.

Russia is described as being on the verge of civil war. The Bolsheviks are continuing their efforts to arrange an armistice. The second army on the northern front is reported to have removed its officers and pledged its support to the extremists. The Cossack leader, Kaledin, is in control of the situation, according to a London dispatch. He controls most of the grain growing in the southern territory and is said to hold the Russian gold reserve, which it is reported was removed from Petrograd a year before the war.

(By Associated Press.)
COPENHAGEN, Nov. 27.—If Russia enters into separate peace negotiations, the ministers of the allied powers at Petrograd will demand their passports, according to a dispatch from Haparanda.

(By Associated Press.)
LONDON, Nov. 27.—The council of the people's commissioners has de-

BISHOP WARNS OF VICE DANGER

ONE IN SIX RECRUITS DISEASED, HE SAYS; DAY OF LOOSE LIVING SOLDIER PAST.

(By Associated Press.)
BOSTON, Nov. 27.—Social diseases in the army have become more than a question of morals and pity; they have become also a question of winning battles, Bishop William Lawrence of the Massachusetts Episcopal diocese declared in a freak address before the Episcopalian club here last night.

Speaking on "Making An American Soldier," he said that the meeting of vice conditions in Europe was one of the most baffling problems with which the military and sanitary authorities had to deal and that they needed the strong and fullest support of the whole people.

"The loose living swashbuckler as an effective soldier has gone by the board," he said. "I believe that the time has come when the people should know the facts, not in sensational headlines, but as plain facts." Quoting figures from the surgeon general's office of conditions in the army from 1911 to 1913, he said one recruit out of every six was diseased and that this average was rather better than that of the young male population from which the army was recruited.

"The greatest danger is with the girls of our villages, towns and cities," he said.

"It is only a question of time," he went on, "before they are contaminated by loose men and loose women, and then follows the horror of the most terrifying and wasteful disease going through the innocent homes of the country. It is the duty of the medical profession to give the facts, but until they do others must speak. Secrecy always breeds suspicion and exaggeration."

TODAY AND A YEAR AGO.

LOSS OF 115 DIVERS ADMITTED BY KAISER

(By Associated Press.)
SAN FRANCISCO, Cal., Nov. 27.—Germany has admitted the loss of 115 submarines through the effectiveness of the American naval patrol, according to a letter to Supervisor Power from his brother, Thomas, in the American destroyer patrol service. Power believes the admission indicates the actual losses are far greater.

Power wrote: "We have done wonderful destruction to the enemy since we entered the fight. The other day we picked up thirteen survivors clinging to a spar they had been on for four days. The Germans had torpedoed their ship and made them enter lifeboats, took nearly all their clothing and ordered them to pull away. When they were off a short distance the Germans fired machine guns and killed thirty-five."

PEOPLE'S COUNCIL FOR BOLSHEVIKI

(By Associated Press.)
PARKSTON, Nov. 27.—The executive committee of the South Dakota branch of the People's Council today adopted a resolution demanding the support of the Russian Bolsheviks and their proposed armistice, according to Attorney Remfer, said to be prominent in the affairs of the council.

Remfer made public a resolution which urged the president to have congress offer peace "without annexations and indemnities," and protested against depriving the people of the right of "free speech."

The council also demanded compensation of wealth to pay for the war and insisted on immediate relief for the South Dakota coal situation.

AMERICAN SHIP IS SUNK BY A DIVER

21 SURVIVORS LAND AT BRITISH PORT; THREE BOATS ARE STILL MISSING.

(By Associated Press.)
LONDON, Nov. 27.—A Corunna dispatch says the American steamship Acton was torpedoed Sunday and that twenty-one survivors have landed. Three boats are still missing.

(By Associated Press.)
SAN FRANCISCO, Cal., Nov. 27.—Superintendent Lewis of the Yosemite park today sent a 4-months-old cub to the California "Grizzlies" camp for a mascot.

THRILLING ACCOUNT OF BRITISH CAVALRY CHARGES IN BIG DRIVE

(By Associated Press.)
BRITISH HEADQUARTERS IN FRANCE, Nov. 25.—(Sunday)—The British cavalry has had many thrilling experiences since the battle began in the Cambrai sector last Tuesday and opened a way for them into the great territory over which they have roamed almost at will, like cavaliers of old seeking combats with those who would accept their gaze.

They swept proudly out of Masnières on their chargers with their sabres making merry music against their trappings. They returned aloft and thereby hang a narrative of bravery and strategy which is worth recording.

For a considerable distance the horsemen cantered along over the rolling grasslands without encountering any enemy. East of Rumilly,

U. S. BOYS LIKE NEW FIGHTING

FIGHT FOR BOURLON WOOD AND VILLAGE MOST SANGUINARY FIGHT BY THE BRITISH.

(By Associated Press.)
BRITISH HEADQUARTERS IN FRANCE, Nov. 25.—(Monday)—American officers visiting the Cambrai sector were thrilled by the renewal of the old type of warfare. They declare "that's the kind of fighting American troops like to be in—in the open, where they can get the enemy with the cold steel."

The fight for the Bourlon wood and village will be remembered as one of the most bitterly fought contests of the war. It was the most sanguinary yet fought on the British front in France.

(By Associated Press.)
LONDON, Nov. 27.—The Germans have failed in new attempts to drive the British from the Bourlon wood and the high ground dominating the Cambrai region. There was much severe fighting Monday around Moeuvres and in the outskirts of Fontaine and at Notre Dame.

German artillery is active in the Ypres and Verdun regions. The Germans heavily bombarded the British positions at Passchendaele, but attempted no infantry attacks. The French and British have reached the fighting zone north of the Venetian plains to aid the Italians, who are successfully standing massed enemy attacks between the Brenta and Piave rivers. British cavalry is within three and a half miles of Jerusalem, closing on the Turkish defense from the southwest.

TWO YANKS ARE KILLED

(By Associated Press.)
WASHINGTON, Nov. 27.—General Pershing has reported two of his men were killed and five wounded severely in an artillery combat with the Germans on the 26th.

BREAD CARDS TO BE ISSUED THE FRENCH

(By Associated Press.)
PARIS, Nov. 27.—Bread cards will be issued shortly. The daily allowance will be about ten ounces per capita.

U. S. FIGHTERS GET FRENCH DECORATIONS

(By Associated Press.)
WITH THE AMERICAN ARMY IN FRANCE, Nov. 26.—(Monday)—Impressive ceremonies marked the decorating with the French war crosses of fifteen American officers and men cited with their company by the French general commanding the sector where the Americans withstood the first German raid. They were told to keep the crosses until "congress authorizes wearing them." The regimental colonel was entrusted with the decorations of the three killed for delivery to relatives in the United States.

(By Associated Press.)
WASHINGTON, Nov. 27.—Secretary Daniels today declared he would advise strict adherence to the prohibitory provision of the constitution, if congress asked his opinion regarding foreign governments decorating men in the American navy.

NO CURTAILMENT OF AUTO MAKING

FACILITIES OF PLANTS SUFFICIENT TO HANDLE WAR WORK, TOO.

(By Associated Press.)
WASHINGTON, Nov. 27.—Drastic curtailment of passenger automobile production, which has been talked of since the manufacturers were called into conference recently with the advisory commission of the council of national defense, has been found unnecessary, according to expert advisers. Facilities of the plants are said to be sufficient for handling government work, now in sight and steel manufacturers have given assurance that they can supply all the metal needed.

A statement issued last night by Judge Lovett, priority director of the war industries board, that he did not contemplate an order shutting off freight cars from the automobile industries was prompted by exaggerated reports of what the government intended to do in restricting the manufacture of so-called non-essential products.

CHIEF STATE WITNESS TURNS TO THE DEFENSE

(By Associated Press.)
SAN FRANCISCO, Cal., Nov. 27.—Jodi Singh, after submitting to the court a list of questions regarding his rights, refused to testify when called as principal government witness in the trial of thirty-four on charges of conspiracy to foment revolution in India. He was immediately made a defendant.

HUNGARIAN LEADER IN BERNE TO GET IN TOUCH WITH THE ALLIES

Count Karolyi, Head of Opposition, to Explain to British and French His Country Not Oppressor

(By Associated Press.)
AMSTERDAM, Nov. 27.—A Berne correspondent of Budapest newspapers said that Count Karolyi, Hungarian opposition leader, explained the main object of his visit to Berne was to "get in touch with the British and French, in order to explain to them that we are neither conquerors nor oppressors."

(By Associated Press.)
WASHINGTON, Nov. 27.—The state department is continuing its inquiry through consular officers at

Mediterranean ports and should it be established that the Schuykill was sunk by an Austrian submarine, the state department, it was said, would have in its possession the essential factors upon which to ask congress for an expression of its will regarding the further maintenance of peaceful relations with Austria. Americans lost their lives on the Italian liner Ancona, destroyed in the Mediterranean and the American tanker Petrolite also was attacked there.

MAIL CENSORSHIP REGULATIONS

(By Associated Press.)
WASHINGTON, Nov. 27.—Regulations will be issued in a few days under the trading with the enemy act governing transmission to or from United States communications not in the regular course of mails. Bills of lading and similar business documents will probably not be forbidden when destined to neutral countries. Commercial travelers and representatives of business concerns may carry letters relating strictly to their business. Most other communications will be forced into mail channels and subjected to censorship.

TWENTY-ONE HUNGER STRIKERS ARE GIVEN LIBERTY BY POLICE JUDGE

(By Associated Press.)
WASHINGTON, Nov. 27.—Twenty-two hunger striking militant suffrage pickets were suddenly released today before the expiration of their jail sentences.

At the Woman's party headquarters it was exultantly announced the jail officials had "gotten enough" of the

first American hunger strike. The released militants were taken to headquarters in triumphant procession in taxicabs. Some showed signs of the rigorous enforced feeding and willful starvation. They were released by order of the police court judge, who summarily reduced their sentences.

U. S. OPERATION OF ROADS NEAR

INCREASING POSSIBILITY OF DRASTIC MOVE SEEN BY OFFICIALS.

(By Associated Press.)
WASHINGTON, Nov. 27.—Government operation of the railroads during the war looks an increasing possibility in the minds of officials, who, with the railroad heads, are trying to work out a plan for relief of the eastern traffic situation. Apparently it is conceded that if the pooling system about to be undertaken by the railroads themselves does not solve the problem the government will take over the operation of the roads as one system.

GABRIEL IS GIVEN LIFE IN A JAIL

(By Associated Press.)
LOS ANGELES, Cal., Nov. 27.—H. A. Gabriel, mining engineer, was sentenced to life imprisonment in San Quentin penitentiary today upon conviction in the superior court of the murder of Roy Shaw, a chauffeur, in a hotel here on September 12.

Gabriel is well known in Tonopah, having worked for the Belmont Mining company. He left here last July.

BUTLER THEATRE

TO-NIGHT

SEE "THE TANKS"

Into the trenches in the Battle of the Ancre. Shells exploding in the first line trenches. French life. These pictures are the real thing. You cannot afford to miss them.
